Key Benefits of Training (USP)

Field-Proven Experts

Our world-class instructors engage in practical implementation activities alongside their teaching. This means that our courses are enriched with up-to-date field knowledge, making it easier to apply our courses to your environment and everyday life directly.

Have peace of mind

We deliver on our promise and schedule. Rest assured, our instructors will give you knowledge, information, hints, and practical experiences around specific topics. Based on a global survey conducted by Cisco, NIL Learning instructors enjoy an average score of 4.78 out of 5.

Rise above the industry average

Cisco courses are intended not only for passing the certification exam but also for developing your skills and rising above the industry average. Our instructors provide guidance and references that allow you to grow into a confident and competent professional.

On demand

Join any of our 130 different courses we can provide and adapt your learning to your schedule.

Stay ahead

We develop official training and curriculum for some of the largest global IT vendors. This ensures that you receive the most up-to-date knowledge available and stay ahead of the pack by joining one of our training programs.

Retain the knowledge longer

Our in-depth, non-interrupted learning program ensures you understand the bigger picture and retain the knowledge long term. It also reduces the risk of information loss and confusion.

Our courses are delivered by experts for experts in the making.

Among the first to offer training on newly arrived Cisco technologies

Part of Conscia, leading European IT solutions and services provider

A tech powerhouse with 30+ years of training & field experience

Industry-Acclaimed, Broadly Expertised, And Technically Proficient

Connecting you with future trusted industry advisors

Testimonial

We had the pleasure of working with NIL as our system designer for several IT projects. Their expertise and professionalism were evident from the start. They took the time to understand our unique needs and consistently delivered innovative and effective solutions that aligned perfectly with our goals. Their attention to detail, commitment to deadlines, and ability to navigate complex challenges were truly impressive. Thanks to their efforts, our projects were completed successfully, on time, and within budget. We highly recommend NIL to any organization seeking top-notch IT system design services.

Our comprehensive offerings

On-Demand (Open Enrollment)

Join one of our more than thousand courses annually to upskill in the latest Cisco technologies.

Our training is conveniently delivered online by expert, certified instructors who leverage their field-proven knowledge to make the training applicable to your real-world needs. Most of our courses span five days and include training, lab exercises, and collaboration opportunities.

Exclusively for you

Exclusive Training for Your Organization (Closed Enrollment).

If there are several engineers from your organization or department who need to be trained in any of the Cisco technologies, we offer companies exclusive training for their employees only. Our field-proven instructors tailor the course to your organization's specific needs, and the training can be conducted on-site for your convenience.

Competence Maturity Awareness

Our Maturity Awareness Assessment service combines skill gap assessment, analysis, proposal of a training delivery plan, and continuous services to ensure support on the upskilling journey.

Focusing on your organization's goals and continuous progress, we provide you with additional tailored content to cover your needs. This approach will help your organization achieve high-performance levels.

Content Development

We help organizations upgrade the combined knowledge base in their organization through our Content Development Offering.

Our seasoned and field-proven instructors develop the content that ensures you achieve your learning objectives. We deliver content that spans various learning needs, such as instructor-led training and workshops, e-learning, and on-demand training.

NIL Learning – more than just a training company

NIL Learning gives you knowledge and skills that accelerate the growth of your competencies. You'll gain direct benefits from our theoretical expertise and practical experiences. We provide proven competencies and long tradition, along with insight into present and future challenges and trends.

NIL Learning delivers leading-edge **Cisco & other technical training** to IT professionals and companies around the globe. Through field-proven experts - **each is an active engineer, content developer and instructor** - we enhance the standard learning curriculum with real-life experience to maximize the client's training investment.

NIL Learning is part of NIL Ltd, a leading global IT solutions and services provider. NIL is headquartered in Slovenia and is part of the Danish Conscia group. Conscia A/S is headquartered in Denmark, with companies in Belgium, Finland, Germany, Ireland, Norway, the Netherlands, Slovenia, Sweden, and the United Kingdom.
